

Configuration Switch settings for Stewart FilmScreen Models (Version 4) 4/10/12

DIP Switch	
	<p>The switch is an 8 position for selecting up to 256 codes . Switch position 1 is most significant, position 8 is least significant. Eg A code of 05 would be switch 6 & 8 on all others off In the table below a ● signifies on</p>
Motor	<p>Direction as seen from the end (viewing the cable entry) along the shaft is illustrated by a ↻(Clockwise) or a ↺ (Counter-clockwise) when the screen / mask up button is depressed. Motor direction at power up or home.</p>

BRIC Gold Version 4.20
