

FLLA 5L Flexible Linear Lighting Arrays - Monochrome

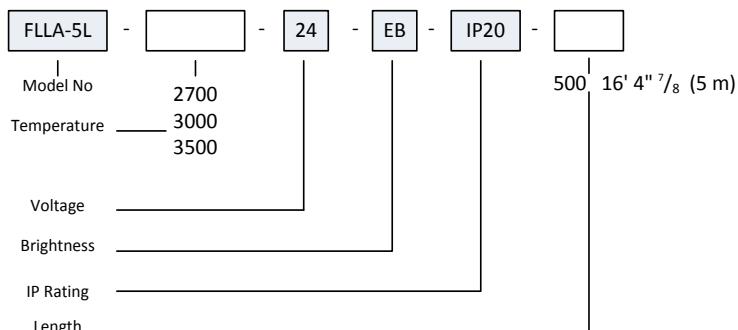

Description

The FLLA 5L (Flexible Linear Lighting Array) family integrates premium LED elements to create 90+ CRI in a variety of factory configured color temperatures. The formulation of the LED luminaires with accurate binning, and other precision components provides remarkable color consistency, with high CRI and precise correlated color temperature. When used with the Converging Systems ILC-x00 family of advanced lighting controllers, the light intensity can be dimmed from 100% to .001% with gamma correction across the entire spectrum.

Key Features

- Professional grade LED Energy saving lighting elements
- Available color temperatures: 2700K, 3000K, 3600K
Other temperatures available factory order
- Dimmable from 100% to .001% with ILC LED controllers
- Precision gamma correction when driven with ILC-x00 family of LED controllers
- Color consistency within a 3 step MacAdam ellipse
- EB-Enhanced Brightness (>250 lumens/ft.)
- IP rating: IP 20. IP 54 and IP 67 available.
- 24vDC input voltage (through ILC family controllers)
- Low-voltage system does not require a commercial electrical license for installation
- 3M™ adhesive backing (silicon fastening straps available for moist locations)
- Can be mounted in 3rd party extrusions
- Available in standard sizes from .1m to 5m (maximum run per discrete leader cable-5M)
- Configured with positive fit clamp power 2-pin power connector.

Ordering Instructions

Ordering Example:

FLLA - 5L - 2700 - 24 - EB - IP20 - 500

One section 16' 4" long (5 meters), 2700K CCT

Specifications

FLLA-5L-2700-EB-24

Input Voltage	24vdc
Nominal Power	3.7W /ft. (12w/m)
LED Density	36.5 /ft. (120/m)
Luminous flux	256 lm / ft. (840 lm / m)
Max Beam angle	160°
CCT	2700K ANSI C78-377-2015
Dimensions	8 mm x 2.0 mm x (s)100mm
IP rating	IP-20
CRI	>90
R9	>50
Chromaticity	x 0.4563 y 0.4124 (CIE 1931)
Accuracy	Within 3 step MacAdam
Duv	< 0.002
Connection	2 pin clamp connector
Min Cut lengths	50 mm
