Electronic House Magazine Has Chosen Converging System Inc. Customer for “2005 Product of the Year Award”

CONVERGING SYSTEMS’ INTELLIGENT MOTOR CONTROLLER, “THE B.R.I.C.” FORMS CORE OF STEWART FILMSCREEN’S ‘DIRECTOR’S CHOICE SCREEN MASKING SYSTEM’

Los Angeles, CA January 13, 2006 ---Converging Systems Inc., a California-based technology company, has added another award to its portfolio of industry awards for a unique and innovative product solution developed for one of its OEM Customers, Stewart Filmscreen Corporation. Electronic House Magazine recently honored one of Converging Systems’ customers, Stewart Filmscreen Corporation, with one of the magazine’s 2005 Best Products of the Year awards for the Stewart Filmscreen Director’s Choice Screen Masking System. A custom designed integrated control technology known as the B.R.I.C.™ developed by Converging Systems for Stewart Filmscreen’s award winning “Director’s Choice Screen Masking System” forms the electronics core for this world-class projection screen product. The B.R.I.C. is a bi-directional, multi-aspect ratio, home-automation compatible multiple motor controller which is integrated within the Director’s Choice Projection Screen System.

Recognition by Electronic House Magazine of the Screen Masking System component of the “Director’s Choice” projection screen product is an exciting accomplishment of our team,” said Craig Douglass, President and CEO of Converging

ELECTRONIC HOUSE MAGAZINE RECOGNIZES CONVERGING SYSTEMS' CUSTOMER FOR 2005 PRODUCT OF THE YEAR AWARD (2 of 2)

Systems. "We think that the multi-aspect ratio Screen Masking System adds a great value and differentiation to the Stewart product in addition to enhancing the function and usability of the world-class Stewart projection screen system. Stewart Filmscreen occupies an unparalleled position in the industry for this type of product innovation and offering.

According to Cindy Davis, Editor-in-Chief of Electronic House magazine, "The editors of EH Publishing's four magazines that are dedicated to the electronic house all choose their favorite products. It is a democratic voting process. And although it's fun, this has got to be one of our most difficult jobs. Our decisions are based on reviews we ran throughout the year, product demos, and talking with the installers and users of the products. Topping our list of criteria is technological innovation, combined with overall value-and just plain outstanding features."

About Converging Systems
